

SNAGI

Sino-Agchem Intelligence

BETA version - work in progress

Main Menu

HOT TIPS: Use full-screen viewing mode [press F11 key]. You may have to print pages using landscape mode

Look for information by:

Company list browser	Access company data (by English name) (Profile text information = work in progress)
Company data browser	Use this for data-mining / viewing partial profiles
Browse agchem AIs	Browse agrochemical active ingredients by name
AI text fragment search	Look for actives by text (fragment) input
Regulatory data	Look for site- and product-specific certifications
Location	Interactive China-locations map

System information:

Service announcements	Website service announcements (database reloads etc.)
System requirements	Is your browser fully equipped for interrogating SNAGI?
Using interactive tables	How to use SNAGI's Java applet-driven interactive tables
About / FAQ	SNAGI version, data content and FAQ information What you should know in order to use SNAGI productively
Help	Panic button!
